Shenzhen Sopto Technology Co.,LTD

COMPANY PROFILE

Sopto is a high-tech enterprise specialized in R&D, manufacturing, marketing and solution service of ICT network infrastructure. Sopto, which was established in 2006, is one of the biggest subsidiaries of Hongan Group, located in Shenzhen China with 350+ employees, 3 factories and one main overseas sales center office.

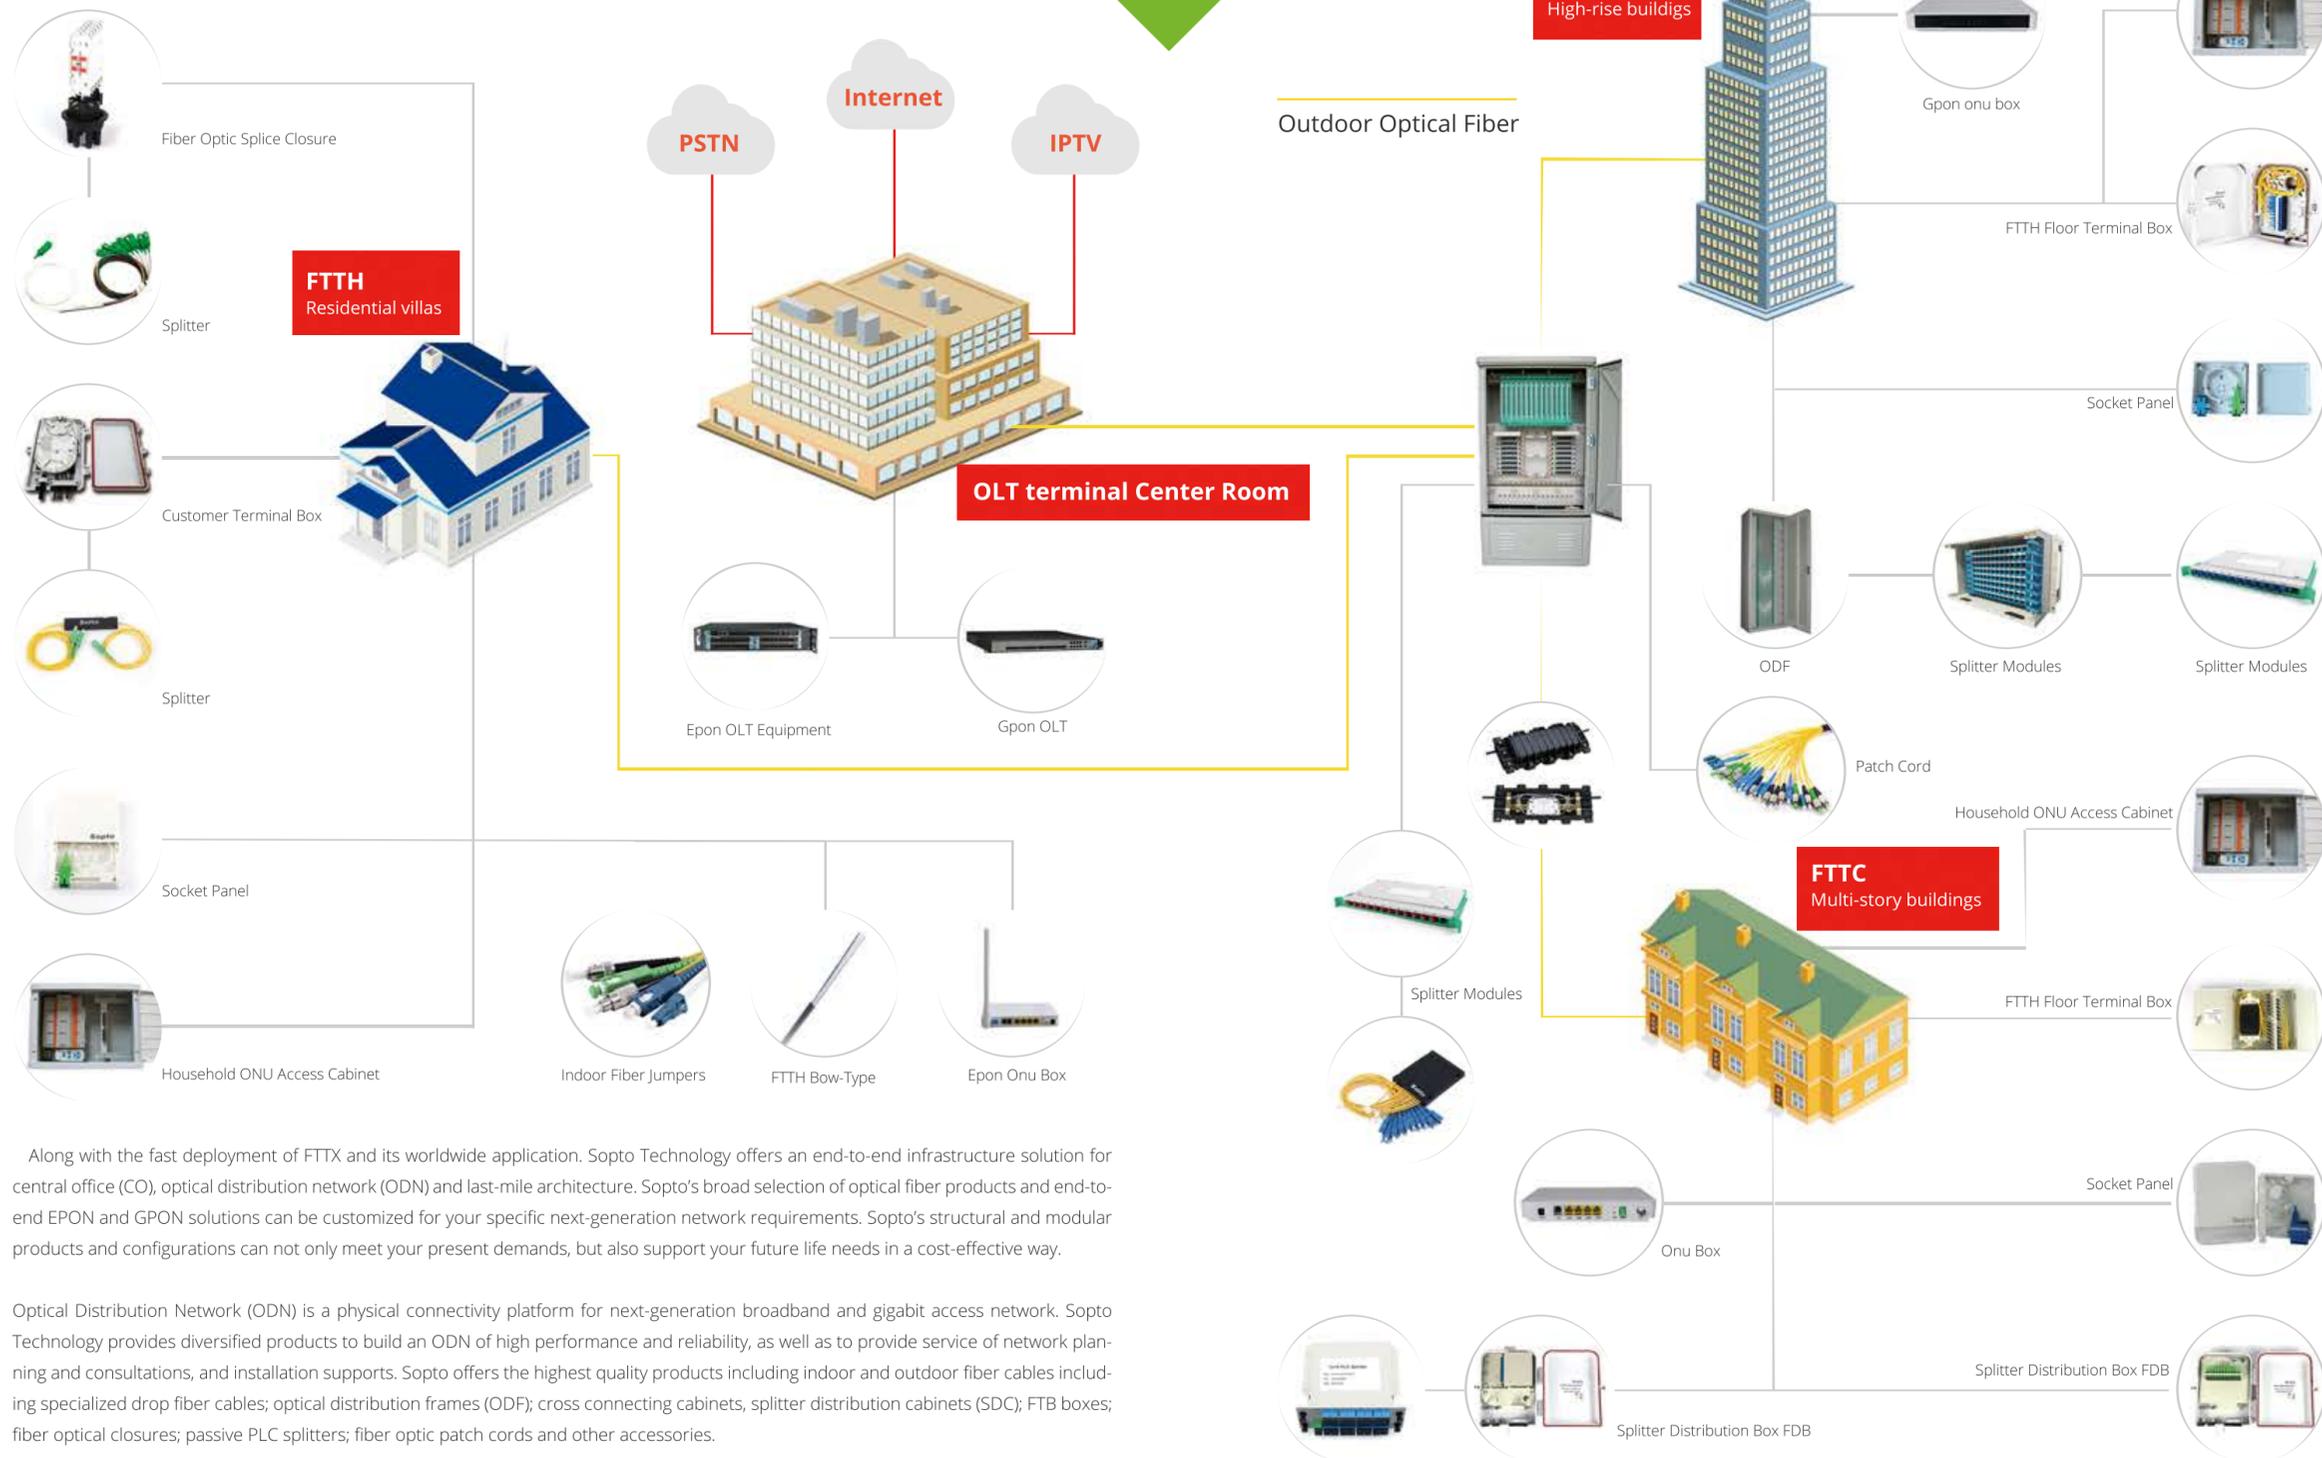

Sopto provides first-rate products and comprehensive solutions, including FTTX solutions, site (LTE) solutions, and data center solutions to domestic and overseas telecom operators, ICT equipment manufacturers and network integrators. Our product portfolio covers GPON/EPON equipment, Fiber transceivers, indoor/outdoor cables, PLC splitter, Fiber Patch cords, copper connectivity, structured cabling system and ODN Products.

Through our expertise in the ICT sector and continuous customer-centric innovation, we will provide more competitive solutions and professional engineering services for customers.

FTTX Solutions · Introduction

Along with the fast deployment of FTTX and its worldwide application, Sopto Technology offers an end-to-end infrastructure solution for central office (CO), optical distribution network (ODN) and last-mile architecture. Sopto's broad selection of optical fiber products and end-to-end EPON and GPON solutions can be customized for your specific next-generation network requirements. Sopto's structural and modular products and configurations can not only meet your present demands, but also support your future life needs in a cost-effective way.

Optical Distribution Network (ODN) is a physical connectivity platform for next-generation broadband and gigabit access network. Sopto Technology provides diversified products to build an ODN of high performance and reliability, as well as to provide service of network planning and consultations, and installation supports. Sopto offers the highest quality products including indoor and outdoor fiber cables including specialized drop fiber cables; optical distribution frames (ODF); cross connecting cabinets, splitter distribution cabinets (SDC); FTB boxes; fiber optical closures; passive PLC splitters; fiber optical patch cords and other accessories.

GPON

Features of GPON Products

- ◆ Standalone 1U 8PON Ports GPON OLT: 8 GE uplink optic ports, 8 GE uplink electric ports, available for 10 Gigabit card expansion slot with 2*10Gigabit SFP+ uplink port; The maximum optical coupling ratio of 1:128, up to 1024 GPON ONTs
- ◆ 10/100M and 10/100/1000M auto-adapting Ethernet ports, support downlink rate 2.448Gbit/s, uplink rate is 1.244Gbit/s
- ◆ GPON ONT products support data, CATV, POTS and WIFI; SFU,HGU series ONT products meet different networking
- ◆ The completed layer 2 switching function
- ◆ The QOS function
- ◆ Support link error monitoring and loop monitoring
- ◆ Support for flexible flow classification, maximum 520 flow classification rules
- ◆ Support a variety of multicast forwarding mode, support multicast replication
- ◆ Support CLI and SNMP management, complying with OMCI standard

GPON OLT

SP-1508GS GPON OLT

- ◆ 1U GPON OLT Chassis
- ◆ 8 * PON OLT Ports
- ◆ 8 * GE Uplink SFP Ports
- ◆ 8 * GE Uplink UTP Ports
- ◆ 10G Uplink Port Optional

GPON ONU

SP-804HI GPON ONU

- ◆ 4 * 10/100M Ports
- ◆ 1 * CATV POT
- ◆ 1 * GE Fiber Port
- ◆ 1 * TEL Port

Ordering Information

SP-1508GS	1U GPON OLT, 8 PON Ports+8 GE uplink optic Ports (SFP)+ 8 GE uplink Electric Ports

SP-804GW	GPON ONT 4*GE Ethernet interface+1*POTS+1*CATV+WIFI+1 GPON interface

EPON

Features of GPON Products

- ◆ Max PON Ports up to 40
- ◆ With 1:64splitting ratio at most
- ◆ Maximum Transmission distance: 20km (1:32 splitting ratio)
- ◆ 10/100M and 10/100/1000M auto-adapting Ethernet ports, support downlink rate 1.244Gbit/s, uplink rate is 1.244Gbit/s
- ◆ Series products: pizza-box, card, compact, and outdoor types of OLT products; data, CATV, WIFI, POTS, MDU, outdoor, HGU types of ONU products for different networking and needs
- ◆ The completed layer 2 switching function
- ◆ Design to meet the requirement of the broadband access network and hot-pluggable
- ◆ The QOS function to realize stable and efficient dynamic bandwidth allocation (DBA)
- ◆ Support OAM function including IGMP Proxy and Snooping function etc.
- ◆ Support Telnet and local command lines management, EMS management based on standard SNMP protocol
- ◆ Fully compatible with IEEE802.3ah standard, and CTC2.0/CTC2.1/CTC3.0 standard

EPON OLT

SP3000S(SP3000C+SP300M+SP3108T)

- ◆ 3U EPON OLT Chassis
- ◆ OLT Control Card
- ◆ 8 * PON Ports + 8 * GE Uplink
- ◆ SFP Ports + 2 * 10GE SFP+ Ports EPON Cards(1-4pcs)
- ◆ 8 * SFP PON Ports/PC

EPON ONU

SP-304HW Triple Play EPON ONU

- ◆ 4 * 10/100M Ports +
- ◆ 1 * CATV Port +
- ◆ 1 * GE Fiber Port(1550nm) +
- ◆ WIFI +

Outdoor Fiber Cable

GYTA53

Application:

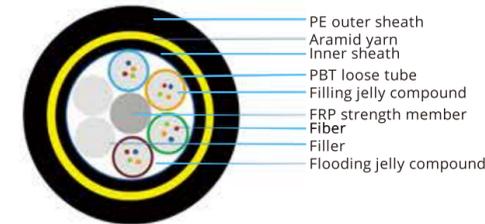

Direct buried

Features:

- ◆ Good mechanical and temperature performance
- ◆ High strength loose tube that is hydrolysis resistant
- ◆ Special tube filling compound ensure a critical protection of fiber
- ◆ Crush resistance and flexibility
- ◆ Compact structure, excellent water-blocking performance

ADSS

Application:

Self-supporting Aerial

Features:

- ◆ Can be installed without shutting off the power
- ◆ Excellent AT performance. The maximum inductive at the operating point of AT sheath can reach 35kV
- ◆ Light weight and small diameter reducing the load caused by ice & wind and the load on towers & back props
- ◆ Large span lengths and the largest span is over 1000m
- ◆ Good performance of tensile strength and temperature
- ◆ The design life span is over 20 years

GYTS

Application:

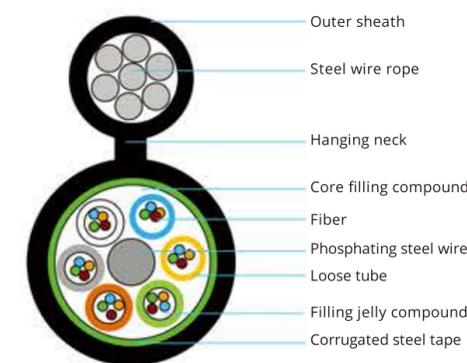

Duct / Aerial/Direct buried

Features:

- ◆ Good mechanical and temperature performance
- ◆ Loose tube material has good hydrolysis resistance performance and high strength
- ◆ Special tube filling compound ensure a critical protection of fiber
- ◆ Specially designed compact structure is good at preventing loose tubes from shrinking
- ◆ Crush resistance and flexibility
- ◆ Compact structure, excellent water-blocking performance

GYTC8A

Application:

Self-supporting Aerial

Features:

- ◆ High tensile strength of stranded wires meet the requirement of self-supporting and reduce the installation cost
- ◆ Good mechanical and temperature performance
- ◆ Loose tube material has good hydrolysis resistance performance and high strength
- ◆ Special tube filling compound ensure a critical protection of fiber
- ◆ Compact structure, excellent water-blocking performance

Indoor Fiber Cable

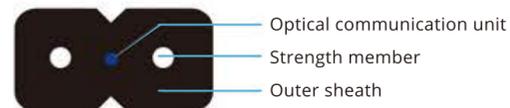

Application:

Access Network, Fiber to the Home (FTTH)

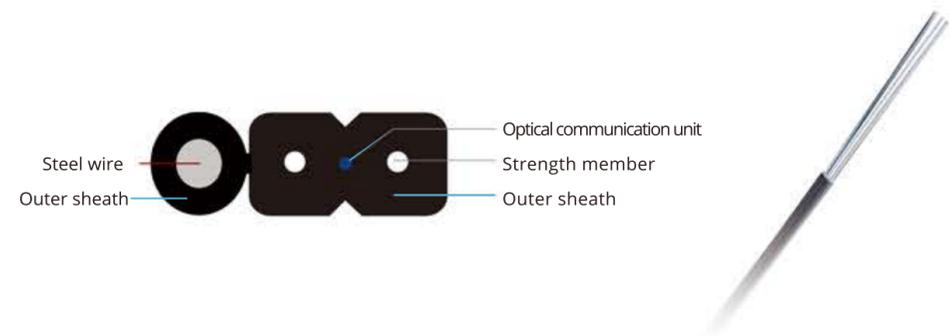

Features:

- ◆ Special low-bend-sensitivity fiber provides high bandwidth and excellent communication transmission property
- ◆ Two parallel FRP strength members ensure good performance of crush resistance to protect the fiber
- ◆ Simple structure, light weight and high practicability
- ◆ Flute design, easily strip and splice, simplify the installation and maintenance
- ◆ Low smoke, zero halogen (LSZH) and flame retardant sheath

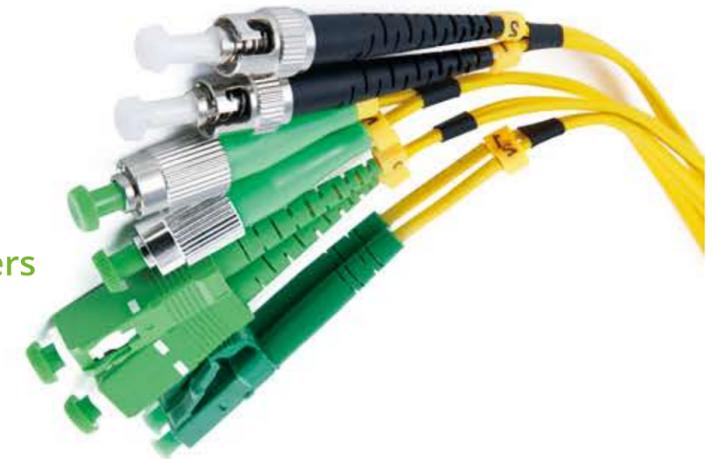

GJXFH

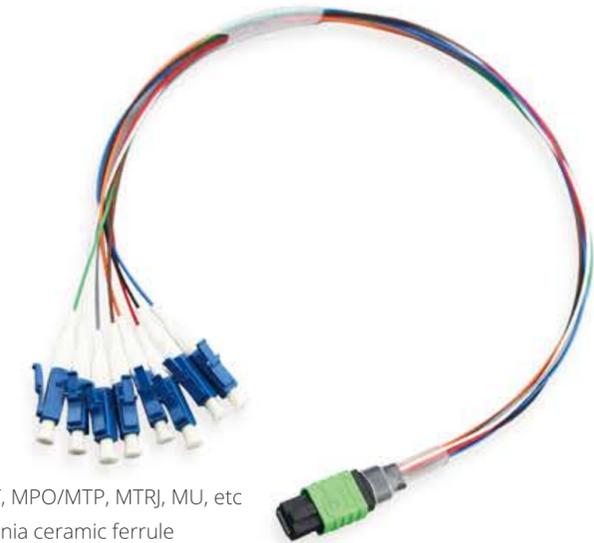

GJYXFCH

Fiber Patch Cord

General Jumpers

Bunched Fan-out

multicores 4, 6, 8 up to 96 cores

Features:

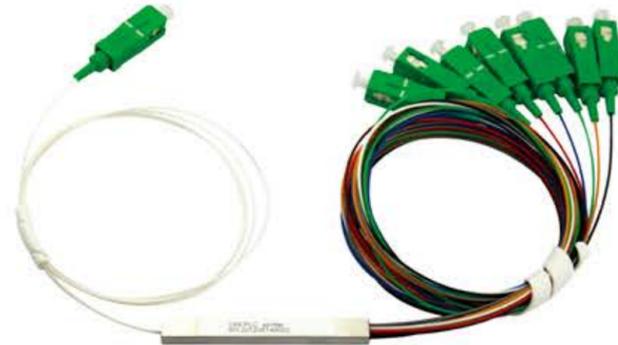

- ◆ Available for different connectors: SC, LC, FC, ST, MPO/MTP, MTRJ, MU, etc
- ◆ PC, UPC and APC polishing are available in Zirconia ceramic ferrule
- ◆ Available for Simplex and duplex, pigtail type
- ◆ Single mode fiber G652D, G657A1 and G657A2, Multimode fiber OM1, OM2, OM3 and OM4 are available
- ◆ The outer jacket can be PVC, LSZH, OFNR, OFNP etc
- ◆ Low insertion loss and high return loss, high dense connection, easy for operation
- ◆ Customer lengths and connectors are available upon request

PLC Splitter

Features:

- ◆ Available for 1*2,1*4,1*8,1*16,1*32,1*64,1*128 and 2*2, 2*4, 2*8, 2*16, 2*32, 2*64 configurations
- ◆ With different connectors: LC, SC, FC, etc
- ◆ Available for different packages: Steel tube, ABS box, Insert-type
- ◆ Low insertion loss and low PDL
- ◆ Excellent uniformity over a wide wavelength range from 1260nm to 1620nm
- ◆ Working in temperature from -40C to +85C
- ◆ Fully comply with Telcordia GR-1209-CORE and Telcordia GR-1221-CORE

Steel Tube

ABS Box

Insert Type Splitter Module

FTTH Splitters Distribution Box

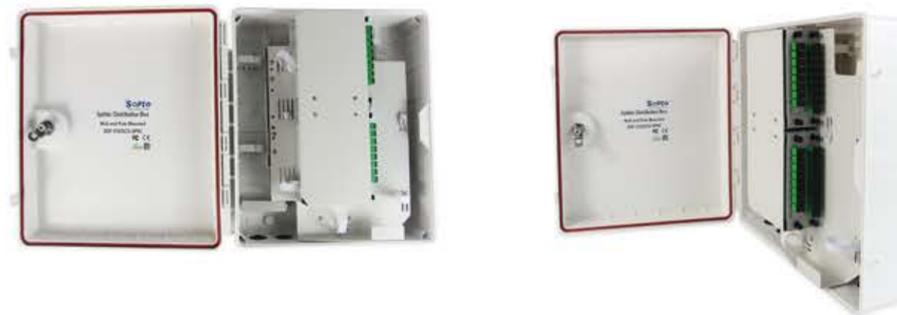

Description:

This series splitter distribution box is suitable for insert-type splitter module and ABS box type splitter; they are used as a termination point for the feeder cable to connect with drop cable in FTTH communication network system.

16 Cores

32 Cores

Features:

- ◆ Available for 1*4, 1*8 and the max capacity can reach 1*64 or 2*32
- ◆ Material: PC+ABS Plastic and Metal; Protection Level: IP65, wet-proof, water proof, dust proof, antiaging
- ◆ Clamping for feeder cable and drop cable, fiber fixation, storage, distribution, etc
- ◆ Cable, pigtailed, patch cords are running through own path without disturbing each other, cassette type SC adapter installation, easy maintenance
- ◆ Distribution panel can be flipped up; feeder cable can be placed in a cup-joint way, easy for maintenance and installation

Indoor Optic Distribution Frame

Description:

It can be used in the termination and distribution of partial trunk optical cable in optical cable communication system easy to realize connection, distribution and adjustment

Optical Distribution Frame

Features:

- ◆ 19 standard cabinets with large-capacity, high-density, modular structure
- ◆ Integrated with fiber fusion, storage and distribution, available to manage every single modular on or off rack
- ◆ Ensure process ability with organized arrangement of fibers, pigtailed and patch cords Suitable for medium capacity distribution site of FTTX splitting spot etc
- ◆ Preloaded with splitter modules, achieve light splitting function easily

Optical Cable Cross Connecting Cabinet

Description:

Optical Cable Cross Connecting Cabinet (hereafter named OCC) is used to connect the fiber trunk cable and the distribution cable between the interface device, which has the import of cable, fastness, grounding protection, welding, jumping (distribution), storage, switching and other functions.

Features:

- ◆ Standard case body made of high intensity, anti-corrosive, anti-aging special composite material
- ◆ Suitable for various bad weather with reliable sealing (water-proof and damp-proof)
- ◆ Splicing & distribution integration module with adaptor assembling, fusion and connection, storage in integration, inserted assembling and available for different type of adaptors such as FC, SC, ST
- ◆ Adaptors assembling with deflexion of 30° to ensure fiber pigtail bending radius, with control winding ring of the fiber in horizontal and vertical. It makes the fiber distribution tidiness and be protected in security
- ◆ The bottom end is assembled with spare splice try, for the direct fusion and connection of trunk optical cables and distribution cables
- ◆ Every side of the cabinet can bear the vertical pressure of 980N, and 200N for the outer edge over the door when door opened

ODF

Door Type ODF

Features:

- ◆ This door type wall mounted terminal box is available for small capacity communication system, wall mounting. The cabinet is composed of 2 parts, one links with optical cables for fusion connection between optical cable and fiber pigtailed. The other part links with patch cord
- ◆ Whole range protected design for fiber lay to ensure the bending radius=40mm
- ◆ Available for SC, FC, LC, ST adaptors
- ◆ 12, 24, 48 ports are available

19 Inch Rack ODF

Fixed Type

Features:

- ◆ 19 inch standard structure, rack mounted
- ◆ Available for the installation of FC, SC, ST, LC adaptors
- ◆ 12, 24, 48, 72 and 96 ports are available
- ◆ Fixed type, Drawer type, dust proof type
- ◆ These series of ODF can be applied in the branch connection of fiber termination, worked as distribution box

Drawer Type

FTTH Terminal Box

Indoor

The series are used in the end termination in residence to be fixed with pigtailed. Wall mounting is available. It can adapt variety of optical connections.

Features:

- ◆ With protective doors, dustproof
- ◆ Suitable for many types of modules, used in cabling work area subsystem
- ◆ Embedded type surface, easy for installation and removal
- ◆ Available for fiber optic SC simplex or LC duplex and can be used in both surface mounted installation and concealed panel installation
- ◆ All modules are solderless mode

Outdoor

Features:

- ◆ Total enclosed structure, be in nice shape
- ◆ Material: PC+ABS, wet-proof, water-proof, dust-proof, anti-aging, protection level up to IP65
- ◆ With the function of fiber splicing, fixation, storage, distribution for feeder cable and drop cable
- ◆ Cable, pigtailed, patch cords are running through their own path without disturbing each other, cassette type SC/LC/PLC adapter installation, easy maintenance
- ◆ Distribution panel can be flipped up, feeder cable can go through a mid-span access way, easy for maintenance and installation
- ◆ Wall-mounted, suitable for both indoor and outdoor use

Fiber Closure

In-line Horizontal Type

Features:

- ◆ Available for the diameter of cable is 10-23mm
- ◆ Available for 12, 24 and the max capacity can reach 288 cores
- ◆ Can be used in aerial, duct, and direct buried application
- ◆ High quality material and with the mechanical sealing structure filled with the sealing material
- ◆ The external components and fastening parts are all made of stainless steel, it can be reopened and reused without changing sealing material

Dome Vertical Type

Features:

- ◆ Available for 12, 24 and the max capacity can reach 144 cores
- ◆ Can be used in aerial, wall mounted and pole application
- ◆ The cover and base are filled with silicone rubber and sealed with hoop
- ◆ The entry ports are sealed with screw thread parts
- ◆ They can be opened after sealing and can be reused without changing sealing material

Accessories

Adaptor

Features:

- ◆ Available for LC, SC, FC, ST, MPO/MTP and hybrid type
- ◆ SM and MM optional
- ◆ Simplex and duplex are available
- ◆ Low insertion loss and high return loss
- ◆ PC, APC, UPC optional
- ◆ Durability ≥ 1000 times

LC

SC

MPO

FC

ST

Fast Connector

Features:

- ◆ Available for SC/APC and SC/APC type
- ◆ SM and MM optional
- ◆ Pre-terminated fiber in the ferrule, no epoxy, curing and polishing
- ◆ Suitable for 3x2.0mm drop cable or 3.0/2.0/0.9mm cable
- ◆ Durability ≥ 1000 times
- ◆ Comply standard of IEC61754-4

Patch Cord Assembly

MPO/MTP Patch cord

Form factor:

High density structure, 12~48 fibers in a termi, Straight cross polarity connection or pair flip polarity are available

Available for Multimode (OM3 and OM4) and Single mode fiber types

Available for MPO/MTP trunk cable which combing 12~144 fibers.

MPO/MTP to LC (SC, FC) breakout Patch cord

Form factor:

Offer Male or Female MPO/MTP connector

Support MPO/MTP to LC or SC or FC connectors in fiber counts of 4, 8, 12, 24

Straight, cross polarity connection or pair flip polarity are available

Available for Multimode (OM3 and OM4) and Single mode fiber types

LC Patch cord

Form factor:

Available for PC, UPC and APC endface

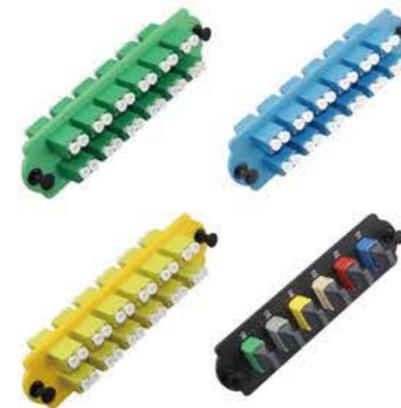

Support Simplex and Duplex

Available for Multimode (OM3 and om4) and Single mode fiber types

Applied in LANs, CATV, FTTH, and Data Center

High-density fiber optic connectivity

Cable Management

Plate

Form factor:

High density with simplex/duplex/quarter adapters like MPO/MTP and LC

Compatible with racks and cabinets

Reduces the loss of the link

easy to upgrade without changing the connection structure

Meet or exceed TIA/EIA-568-C.3 requirements

Customized color and other purpose

Application:

Connects pre-terminated optical cable

Connects fiber jumpers between equipment /fiber distribution area

MPO/MTP Cassette

Features:

Provide transition between MPO/MTP and LC connectors.

Mounted in 1U scaling up to 72 or in 4U scaling up to 288 discrete connectors.

High performance zirconia sleeve adapters.

Meet IEC 61300-3-4 B

Rapid configuration and network, reduce installation time

Application:

Data centers, pre-terminated and tested structured cabling installation

Rapid upgraded and support parallel transmission system application

Modular Enclosure

Features:

Fits into 19 inch installation

High Density of 12 or 24 fiber cassettes/panels can be mounted 1U/2U/4U height fixed and drawer styles

Max capacity up to 576 fibers counts

MPO/MTP and LC or SC connectors

Easy to operate and maintain, marked clearly

Customized coating color

Meet RoHS 2002/95/EC TIA/EIA568-C,ISO/IEC11801,EN50173

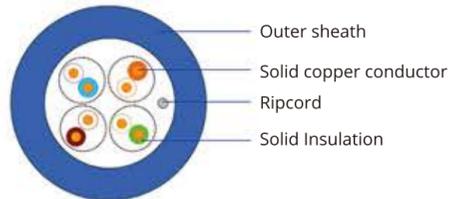

Application:

Data centers, pre-terminated installation

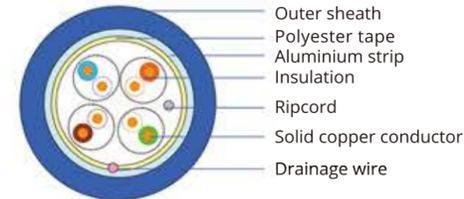

Network Cable

Symmetrical Pair Cables for Digital Communications Horizontal Floor Wiring

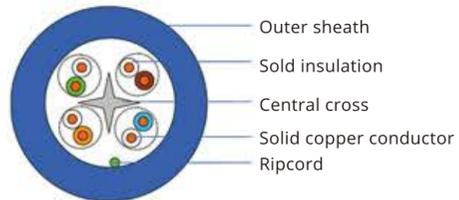

HSYV5e

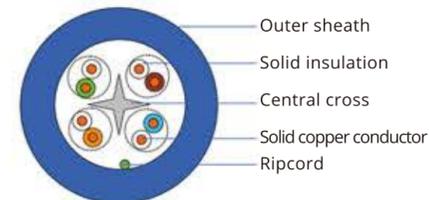

HSYVP5e

HSYV6

HSYV6A

- Category:** Indoor and Outdoor FTP/ UTP CAT5/CAT5E/CAT6/CAT6A/CAT6E/CAT7
- Applications:** 10Base/100Base/155M ATM up to 10GBase
- Impedance:** More bandwidth excess than 100MHz/250MHz/500MHz/600MHz
- Design:** Customized outer sheath or other purpose
- Standards:** ISO/IEC11801; ANSI/TIA/EIA-568-C; YD/T1019; UL444; IEC61156; EN50288-4-1; GB/T18015; ROHS

RJ45 Distribution Frame

- Size:** 19 inch * 1U or 2U
- Capacity:** 12/ 24/ 48 ports
- Availability:** UTP & FTP CAT5E, UTP & FTP CAT6, CAT6A and CAT6E
- Standards:** Meet or be superior to CAT5E, CAT6, CAT6A and CAT6E standards of TIA/EIA-568A/568B standards

PCI-E Server Adaptor

10G

Dual-Port 10G

- Controller:** Intel® 82599ES*1
- Bus Type:** PCI Express 2.0 (5GT/s)
- Bus Width:** x 8 lane PCI Express, operable in x 8 and x 16 slots
- Network Interface Type:** SFP+ Slots *2
- Operating Systems:** Microsoft Windows Server 2003 SP2 & 2008 R2
Windows Unified Storage Solution 2003
Windows Server 2008 SP2, SP2 Core
RHEL4.8 and RHEL5.4
Linux SLES10SP3 and SLES11
FreeBSD 7.5 UEFI 2.0
VMware ESX3.5 and ESX4U1

40G

Quad-Port 10 GE

- Controller:** Intel® Ethernet Controller XL710-AM2
- Bus Type:** PCI Express 3.0 (8 GT/s)
- Bus Width:** 4-lane PCI Express* and 8-lane PCI Express
- Network Interface Type:** SFP+ Slots*4
- Operating Systems:** Windows Server 2012 R2* & 2012 R2 Core
Windows Server 2012 & 2012 Core
Windows Server 2008 R2* & 2008 R2 Core
Linux* Stable Kernel version 2.6.32/3x
Linux RHEL 6.5 and RHEL 7.0
Linux SLES 11 SP3 and SLES 12
FreeBSD* 9 and 10
UEFI* 2.1 & 2.3
VMware ESXi 5.11

Dual-Port 40 GE

- Controller:** Intel XL710 Gigabit Controller
- Bus Type:** PCI Express 3.0 (8 GT/s)
- Bus Width:** PCI-Express x8 (x16 PCI-E slots)
- Network Interface Type:** QSFP+ Slot*2, LC Fiber
- Operating Systems:** Windows Server 2012 R2* & 2012*
Windows 8* & 7*
Windows Server 2008 R2* & 2008* SP2
Windows Vista* SP2
Windows Server 2003 R2* & 2003* SP2
Linux* Stable Kernel version 3.x, 2.6.x
Red Hat Enterprise Linux* 5, 6
SUSE Linux Enterprise Server* 10, 11
FreeBSD 9*
VMware ESX/ESXi*
