

Fiber Optic Thermal Stripper

SPTK-HS08

Product Features

- Temperature adjustable
- Limiting blade
- 8 temperatures
- Good peeling effect
- Rechargeable
- Excellent material
- USB fast charging
- LED light
- Spare blade storage slot

Product Name	SPTK-HS08
Applicable optical fiber	Bundle fiber/bare fiber/Ribbon fiber/invisible fiber
Stripping quantity	1-15 Core Bundled Fiber /1-48 Core Bare Fiber/ 2-24 Core Ribbon Fiber /1-12 Core Invisible Fiber
Applicable fiber cladding diameter	25μm
Stripping length of coating	≤32mm
Limit blade edge width	20mm
Temperature	Heating temperature ≤ 160 °C
Battery capacity	3500mAh built-in lithium battery

Overall dimensions	about 13.5*4.3*3.2cm
Weight	About 230g

Dual heating mode, Eight level temperature regulation

Two new modes of temperature regulation are added

Temperature gear/battery indicator light

HEATER (high temperature gear) mode:

SAVEMODE (low temperature gear) mode:

Double click the power button to turn on the LED light

Spare blade storage slot Easy to carry and replace blades
